Re: Vacation related vacancies in LA pool.

Dear Mr. Cook,

When an engineer holding an LA assignment claims another LA engineer's assignment for a vacation related vacancy, his assignment is immediately claimable as a vacation related vacancy.

The above was approved by the membership at the April BLE&T Division 375 monthly meeting and approved by BLE&T General Chairman, Ray C. Wallace – General Chairman (NS Southern Lines.)

Sincerely,

Mark E. Monroe
